

## COMPILATION OF PROPOSALS MADE BY GROUP B AND CO-SPONSORS OF THE JOINT PROPOSAL

[Group B] To adopt the following CDIP coordination mechanism principles:

- The aim of the development agenda is to ensure that development considerations form an integral part of WIPO's work and the coordination mechanism should promote this aim.
- CDIP, in accord with its mandate, has the primary responsibility to monitor, assess, discuss and report on the implementation of all recommendations adopted.
- All WIPO Committees stand on an equal footing and report to the Assemblies.
- To avoid duplication of WIPO's governance arrangements the coordination mechanism should be consistent with, and where practical, use existing governance structures and procedures.
- The coordination of the CDIP with other relevant WIPO bodies should be flexible, efficient, effective, transparent and pragmatic. It should facilitate the work of the CDIP and the respective WIPO bodies.
- The coordination should be resource-neutral and not create new financial obligations for Member States.
