

**REVISED WORKING DOCUMENT ON AN INTERNATIONAL INSTRUMENT ON
LIMITATIONS AND EXCEPTIONS FOR VISUALLY IMPAIRED PERSONS/PERSONS
WITH PRINT DISABILITIES**

PREAMBLE

(First)

Recalling the principles of non-discrimination, equal opportunity, accessibility, and full and effective participation and inclusion in society, proclaimed in the Universal Declaration of Human Rights and the United Nations Convention on the Rights of Persons with Disabilities,

(Second)

Mindful of the challenges that are prejudicial to the complete development of persons with visual impairments/print disabilities, which limits their freedom of expression including the freedom to seek, receive and impart information and ideas of all kinds on an equal basis with others, including through all forms of communication of their choice, their enjoyment of the right to education, and the opportunity to conduct research,

(Third)

Emphasizing the importance of copyright protection as an incentive and reward for literary and artistic creations and enhancing opportunities for everyone including persons with visual impairments/print disabilities to participate in the cultural life of the community, to enjoy the arts and to share scientific progress and its benefits,

(Fourth)

Aware of the barriers of persons with visual impairments/print disabilities to access published works in achieving equal opportunities in society, and the need to both expand the number of works in accessible formats and to improve the circulation of such works,

(Fifth)

Taking into account that the majority of persons with visual impairments/print disabilities live in developing and least-developed countries,

(Sixth)

Recognizing that despite the differences in national copyright laws, the positive impact of new information and communication technologies on the lives of persons with visual impairments/print disabilities may be reinforced by an enhanced legal framework at the international level.

(Seventh)

Recognizing that many Member States have established exceptions and limitations in their national copyright laws for persons with visual impairments/print disabilities, yet there is a continuing shortage of available works in accessible format copies for such persons, and that considerable resources are required for their effort of making works accessible to these persons, and that the lack of possibilities of cross-border exchange of accessible format copies has necessitated duplication of these efforts,

(Eighth)

Recognizing both the [preference for the rightholders to make] [importance of rightholders' role in making] their works accessible to persons with visual impairments/print disabilities and [the importance of] [the need for] appropriate exceptions and limitations to make works accessible to persons with visual impairments/print disabilities, [including] [particularly] when the market is unable to provide such access.

(Ninth)

Recognizing also the need to maintain a balance between the effective protection of the rights of authors and the larger public interest, particularly education, research and access to information, and that such a balance must facilitate effective and timely access to works for the benefit of persons with visual impairments/print disabilities,

(Tenth)

[Reaffirming the obligations of Members States under the existing international treaties on the protection of copyright and the importance and flexibility of the three-step test for limitations and exceptions established in Article 9(2) of the Berne Convention and other international instruments],

(Eleventh)

Recalling the importance of the Development Agenda recommendations, adopted in 2007 by the General Assembly of the Convention Establishing the World Intellectual Property Organization (WIPO), which aim to ensure that development considerations form an integral part of the Organization's work,

(Twelfth)

Recognizing the importance of the international copyright system and desiring to harmonize exceptions and limitations with a view to facilitating access to and use of works by persons with visual impairments/print disabilities.

ARTICLE A
DEFINITIONS

For the purposes of these provisions

"work"

means literary and artistic works within the meaning of Article 2.1 of the Berne Convention, [in the form of text, notation and/or related illustrations], whether published or otherwise made publicly available [in any media].

"accessible format copy"

means a copy of a work in an alternative manner or form which gives a beneficiary person access to the work, including to permit the person to have access as feasibly and comfortably as a person without visual impairment/print disabilities. The accessible format copy is used exclusively by beneficiary persons and it must respect the integrity of the original work, taking due consideration of the changes needed to make the work accessible in the alternative format and of the accessibility needs of the beneficiary persons.

"reasonable price for developed countries" (Proposed in SCCR/23/7)
means that the accessible format copy of the work is available at a similar or lower price than the price of the work available to persons without print disabilities in that market.

"reasonable price for developing countries" (Proposed in SCCR/23/7)
means that the accessible format copy of the work is available at prices that are affordable in that market, taking into account the needs and income disparities of persons who have limited vision and those with print disabilities.

- [v) An authorized entity carrying out cross-border exchanges of accessible format copies establishes and follows rules and procedures which enable the provision of anonymous and aggregated data relating to such exchanges for the evaluation, when appropriate, of their volume and periodicity.] [This provision shall not apply to developing and least developed countries, nor to governmental authorized entities, libraries or educational institutions.]]

The limitation or exception provided in national law should permit changes needed to make the work accessible in the alternative format.

2. A Member State/Contracting Party may fulfill Article C (1) for all rights provided therein by providing an exception or limitation in its national copyright law such that:

(A) Authorized entities shall be permitted without the authorization of the copyright rights holder to make an accessible format copy of a work, obtain from another authorized entity a work in accessible format, and supply those copies to a beneficiary person by any means, including by non-commercial lending or by electronic communication by wire or wireless means, and undertake any intermediate steps to achieve those objectives, when all of the following conditions are met:

1. the authorized entity wishing to undertake said activity has lawful access to that work or a copy of that work;
2. the work is converted to an accessible format copy, which may include any means needed to navigate information in the accessible format, but does not introduce changes other than those needed to make the work accessible to the beneficiary person;
3. copies of the work in the accessible format are supplied exclusively to be used by beneficiary persons; and

5. It shall be a matter for national law to determine whether exceptions or limitations referred to in this Article are subject to remuneration.

ARTICLE D

CROSS-BORDER EXCHANGE OF ACCESSIBLE FORMAT COPIES

1. A Member State/Contracting Party should/shall provide that if an accessible format copy of a work is made under an exception or limitation or pursuant to operation of law, that accessible format copy may be distributed or made available to a beneficiary person or an authorized entity in another Member State/Contracting Party by an authorized entity [where that other Member State/Contracting Party would permit that beneficiary person or authorized entity to make or import that accessible copy.]

2. A Member State/Contracting Party may fulfill Article D(1) by providing an exception or limitation in its national copyright law such that:

(A) Authorized entities shall be permitted without the authorization of the rightholder to distribute or make available for the exclusive use of beneficiary persons accessible format copies to an entity or organization in another Member State/Contracting Party that [qualifies as/is] an authorized entity.

Alternative B: [A Member State/Contracting Party should/shall[/may] prohibit said distribution or making available to published works where the exporting authorized entity, prior to making available or distribution, knew or should have known that a copy in the particular accessible format could have been obtained through the distribution channels customary to the beneficiary persons, [under reasonable terms, including] at prices that take account of the needs and incomes of beneficiary persons in the country of importation[, as well as the cost of producing and distributing the work].]

4. 2. A Member State/Contracting Party may fulfill Article F(1) by permitting, under its national copyright law, circumvention of technological protection measures for the purposes of, and to the extent necessary for benefiting from an Article C exception. Member States/Contracting Parties may encourage rightholders to take adequate, effective and readily accessible voluntary measures to ensure the exercise of limitations and exceptions by beneficiaries.

Alternative B

Where the national law of a Member State/Contracting Party provides adequate legal protection and effective legal remedies against the circumvention of technological measures, a Member State/Contracting Party should/shall/may adopt effective and necessary measures to ensure that a beneficiary person may enjoy limitations and exceptions provided in that Member State's/Contracting Party's national law, in accordance with this instrument/Treaty, where technological measures have been applied to a work and the beneficiary person has legal access to that work, in circumstances such as where appropriate and effective measures have not been taken by rights holders in relation to that work to enable the beneficiary person to enjoy the limitations and exceptions under that Member State/Contracting Party's national law.
