

Proposal of Mexico to move forward the discussion within the coordination mechanism

- (1). Upon completion of the substantive work of each session of the Committees, an opportunity should be provided for Member States who so wish to discuss those activities of the committee that have contributed to the implementation of the recommendations of the Development Agenda.
- (2). The item to be included on the agenda must be entitled "Contribution of the Committee to the implementation of Development Agenda recommendations incumbent upon it", following the language adopted in other committees and working groups.
- (3). This agenda item will be concise and its inclusion will not be open to discussion by the Member States.
- (4). The report submitted by each Committee to the Assemblies shall include a summary by the Chairman of the Committee and the report will not be open to negotiations between Member States.
- (5). The issue of the coordination mechanism as such will only be debated within the CDIP and discussions on its application in other WIPO committees will not be entertained, as these committees are not suited to that purpose.
